Royal Ten Cate sells minority share in Schwabenvlies

Royal Ten Cate has reached an agreement concerning the divestment of its minority share (40%) in Schwabenvlies, a German producer of non-wovens, to a strategic buyer. The divestment is in accordance with the policy statement to fulfill leading positions in niche markets. The divestment of this company, that is not of material importance for Ten Cate's turnover and result, generates a modest book profit.

Almelo, 23 March 2004
