

Outer Shell and Thermal Barrier Laundering Guidelines

The proper care and maintenance of protective clothing is very important. TenCate Protective Fabrics recommends that you consult your manufacturer's user information guidelines and/or:

NFPA® 1851 Standard on Selection, Care and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting.

NFPA Website: www.nfpa.org

TenCate Protective Fabrics also suggests using a front-loading commercial washer to avoid undue damage associated with the agitator in a top-loading washer.
