

## Application Story

PROJECT REEUWIJK PLASSEN, THE NETHERLANDS  
 Product Geotube® Marine Structures Technology  
 Application Breakwaters

Location

Reeuwijk Plassen, The Netherlands

**The Challenge:**

This popular recreational area wanted to build a breakwater structure to protect the inland shoreline area.

**The Solution:**

Geotube® marine containment technology was used to construct the desired breakwater. The top of the Geotube® structure was sprigged with native vegetation.

**The Results:**

After six months, the top of the breakwater was completely covered with vegetation. In addition to protecting the shoreline, the Geotube® breakwater created a new wildlife habitat.
