

# TENCATE Tecawork

## SERVICES & INDUSTRIES

The TenCate Tecawork™ collection is a range of fabrics for workwear.

### MK 9014 – 275/290 g/m<sup>2</sup>

#### TenCate Tecawork™ – MK 9014 Chemical-repellent fabric 99/1% Polyester/Static-Control™

TenCate Tecawork™ - MK 9014 is an ideal fabric for chemical-repellent applications. The fabric has a plain weave and complies with Öko-Tex Standard 100. Produced from high-quality polyester fibres, this fabric has a special construction and a Hydro-Tec finish, which makes it both extremely durable and excellent for repelling dirt, oil, chemicals and water.

**Outstanding value** – Suitable for use in workwear. Thanks to the fabric's excellent repellent properties, it is ideal for workers who require protection against chemical and oil splashes in an industrial environment.

**Optional: High-visibility yellow and orange** – Complies with EN 471: 2003.

**Limited chemical protection** – Protects against splashes thanks to Hydro-Tec, an innovative nanotechnology finish (complies with EN 13034: 2005).

**Extremely durable** – Long-lasting, due to the use of 100% polyester fibres.

**Anti-static for explosion risk protection** – TenCate Static-Control™ is a core conductive filament yarn and is 'gridlocked' into the fabric (complies with EN 1149-5: 2008, test method EN 1149-3: 2004).

**Long-lasting appearance** – Available in different colours. Retains high-quality appearance, even after repeated industrial laundering.

**Öko-Tex Standard 100** – Fabric has been tested for harmful substances.

The TenCate Tecawork™ collection is a range of fabrics for workwear.

Technical data	TenCate Tecawork™	Test method
Quality	MK 9014	
Width	153 cm (+2/-1 cm)	ISO 3801: 1978
