### TenCate Geosynthetics introduces case study video on global projects

TenCate Geosynthetics Americas has developed a seven minute video clip “TenCate at Work Around the Globe”, featuring several innovative TenCate projects around the globe. These projects illustrate several possibilities and applications using geotextile materials.

Brett Odgers, Market Manager at TenCate Geosynthetics comments: ‘Our company is the world’s leading provider of geosynthetic products and solutions. This new case study video showcases various products, systems and applications that highlight the capabilities of TenCate and our focus on innovation in geosynthetics around the world’.

Included in the video are applications ranging from MSE Wrapped Face Walls and Basal Reinforced Embankments on Piles along with products ranging from the innovative TenCate Mirafi® RS580i roadway reinforcement geosynthetics and TenCate GeoDetect®, the industries first smart geosynthetic. This exciting compilation of images and information provides a view into TenCate.
